PROFESSIONAL PROFILE

Computer engineer passionate about building robust software solutions and high-performance applications. Graduated in Computer Engineering, with skills in full-stack development (front-end & back-end). Motivated by continuous learning, I strive to design high-quality, reliable applications focused on user experience.

EDUCATION

Engineering Degree in Computer Science 2022 – 2025
National Engineering School of Tunis (ENSIT)

Scientific Preparatory Cycle (Mathematics/Physics) 2020 – 2022
Preparatory Institute for Engineering Studies of Bizerte (IPEIB)

Baccalaureate in Mathematics 2020
Lycée Khayr Eddine Bacha, Mourouj 3

SKILLS

Programming languages: C, C++, Java, PHP, JavaScript, TypeScript, HTML, CSS

Frameworks & libraries: React.js, Next.js, Nuxt.js, Angular, Node.js, Laravel, Flutter

Databases & ORM: SQL, NoSQL, MySQL, MongoDB, Firebase, PostgreSQL, Prisma

Tools & environments: Linux, Packet Tracer, Docker, Git, Bitbucket, Swagger, Postman, GitHub, Jenkins, Jira

APIs & other technologies: REST API, Stripe

Soft skills: Teamwork, Project management, Time management, Punctuality, Adaptability

PROFESSIONAL EXPERIENCE

OrderCare October 2026

Freelance Web Developer (Next.js)

Freelance development of OrderCare's showcase website, a Tunisian order-confirmation and after-sales service agency for e-commerce businesses, featuring services and pricing packages, an interactive profitability calculator, reports, FAQ, and quote request form.

Technical stack: Next.js

Website: ordercare.tn

Alimexia June 2026 – September 2026

Freelance Full-Stack Developer

Freelance development of Alimexia, an e-commerce solution combining a showcase website with a complete back-office and front-office application for e-commerce management, including online payment.

Technical stack: Next.js, MongoDB, Node.js, OVH, Stripe

Website: alimexia.com

Next December 2025 – August 2026

Full-Stack Developer

Full-stack development across the entire development cycle, from front-end to back-end. I design scalable, reliable solutions that enhance user experience, optimize business processes, and meet client needs, working closely with product and business teams.

Technical stack:

YouSoap — E-commerce Platform

Full-Stack Developer (Next.js)

• Development of an e-commerce platform with complete front-office and back-office management.

Technical stack: Next.js, MongoDB, Postman, REST API

Kaisse — Showcase & E-commerce Website

Full-Stack Developer (Next.js)

• Showcase and e-commerce website dedicated to presenting and selling the Kaisse point-of-sale mobile application.

Technical stack: Next.js, MongoDB, Postman

HumanLink — Recruitment Management Platform

Frontend Developer (Next.js)

• Development of the front-end interfaces of the recruitment management platform.

Technical stack: Next.js

Amaway — Travel Agency Management Platform

Full-Stack Developer (Next.js)

• Secure web application for centralized management of interactions between partner travel agencies and Amadeus Tunisia.

Technical stack: Next.js, PostgreSQL, Prisma, Postman, REST API, Python

Bien — Fixed Asset Management ERP Platform

Backend Developer (Node.js)

• Development of the backend (REST API) of an ERP solution for fixed asset and inventory management.

Technical stack: Node.js, MongoDB, Postman, REST API

DECADE February – May 2025

Final Year Project

Redesign of the checkout process of an e-commerce website to improve performance, maintainability and user experience; migration of the front-end from TWIG to Next.js with a responsive design and modular backend using REST APIs in PHP.

Technical stack: Next.js, React.js, Redux, PHP, TypeScript, MySQL, Docker, Bitbucket, Postman, Swagger

Mini-project 1

• Creation of an e-commerce website with React.js based on APIs for product and cart management.

Technical stack: React.js

Mini-project 2

• Development of a second e-commerce website with Next.js integrating server-side rendering (SSR) and client-side rendering (CSR).

Technical stack: Next.js

ConvergeINNOV June – August 2024

Technician Intern: Full-Stack Developer

Design and development of a hotel management mobile application (reservations, room management) using Flutter and Firebase for real-time data management and authentication.

Technical stack: Flutter, Firebase, UML, GitHub

Fortis Soft June – July 2023

Intern: Front-End Developer

Development of a showcase website with intuitive navigation and a dynamic quote request form.

Technical stack: HTML, CSS, JavaScript, PHP

LANGUAGES

Arabic: Native • French: Intermediate • English: Intermediate

CERTIFICATIONS

• Introduction to Networks — Cisco Certified Network Associate

• Switching, Routing and Wireless Essentials — Cisco Certified Network Associate

• Enterprise Networking — Cisco Certified Network Associate

• AWS Academy: Introduction to Cloud

• AWS Academy: Machine Learning Foundations (AWS)

• CrocoCoder Academy: Angular Training – 24h

• Geeks Club ENSIT: Web Development Training

EXTRACURRICULAR ACTIVITIES

• IEEE ENSIT Student Branch — Active member, participation in the organization of TSYP 11 (2023). Certificates of appreciation and recognition for involvement and overall performance.

• SIT 2022 — Participation in the forum with recognized contribution. Achievement certificate – Distinguished participation.

• Club GEEKS ENSIT — Active member, participation in training activities and technical events.
